To Whom It May Concern;

I am writing this letter to let you know what an honor it has been working with the team from Griffin Wink Advertising. Kevin Wade and his team have been instrumental with their guidance and assistance in developing a brand for the New Mexico Museum of Natural History Foundation's Solutions for a Better Tomorrow YouTube Video Contest. Not only did they design our poster, but additionally created all coordinating collateral.

The Foundation has been very pleased with the quality of work and the non-profit billing consideration. I can confidently recommend Griffin Wink Advertising to any interested parties!

Sincerely,

Abigail Eaton, Executive Director  
New Mexico Museum of Natural History Foundation
